

General Information

Description	Gloup is a universal gel that eases the intake of solid, oral medication. Gloup is "universal" as it does not interact with medication and it is suitable for everyone who can swallow autonomously, from the age of two years. The intake of solid medication, such as tablets, pills and capsules, is often perceived as difficult. Studies show that roughly 40% of the population suffer from medication intake problems (M.I.P.). M.I.P. occur in every age group and predominantly in elderly and children. M.I.P. are not necessarily linked to a disease or an illness. Gloup is a Class I Medical Device.	
Ingredients	Original	Aqua, carrageenan, maltodextrin, potassium sorbate, sucrose, calcium chloride, citric acid, color, aroma. <i>All ingredients are of natural origin</i>
	Sugar Free	Aqua, carrageenan, maltodextrin, potassium sorbate, aspartame, calcium chloride, citric acid, (natural) color, (natural) aroma
Shelf life & Storage conditions	24 months after production, 2 months after opening Keep stored between 2°C and 25°C at all times	
Intrastat Code	30067000	
Transportation	Product should be transported by temperature controlled means between 2°C and 25°C. Prolonged exposure to higher temperatures will cause a significant loss of colour.	
Classification:	EC	Medical Device, Class I according to MDD 2007/47 and 93/42. Certificate number NL-CA002-34162 (Sugar Free) NL-CA002-27358 (Original)
	USA	Medical Device, 510(k) Exempted
	GMDN Code	12401
	Scope of application	Oral lubrication jelly to facilitate the intake of solid medication
	EC 1336/2008	Not classified
	EC 1907/2006	Raw materials are exempted or (pre-) registered
ISO Certification Production:	Product is produced in the EC in accordance with the stipulations of: ISO 13485:2003 ISO 9001:2008
